Subject: Follow-up to today's call - FieldDoc info
Attachments: FieldDoc Project Coordination.xlsx; AllBayDataManagement.pptx

Flag: Follow up

Lee,

Thank you for the time this morning to discuss.

We'll follow up later with more of the action items and notes from the call, but I wanted to provide you with the data integration and FieldDoc updates.

The presentation attached is what Kate Bresaw provided at the CCD "All Bay" meeting. I've given a more recent condensed version during the DoD/EPA/DEP partnership call that either I or Jordan can provide as part of the June WQGIT data management/reporting tools, and then Jordan and John can go into detail about the status of the FieldDoc tool. Jordan will be discussing this with Emily and John next week.

I've also attached a timeline of needed and desired enhancements to the FieldDoc tool. Our "hit" date is set at the week of July 6 so that the counties can have the requisite training and have the time to input their information so that it's QA/QC'd and ready to report for annual progress.

Additionally, CBO staff is working on a set of Data Tools publications for our county stakeholders and others who are interested: Data Management, GIS, Water Quality Data Support, and Modeling Support.

Thank you,

Jill Whitcomb | Director, Chesapeake Bay Program Office
